

Job: Millwork Project Manager
Company: SMG Millwork
Location: Nassau Bahamas

Take advantage of an awesome opportunity to work in the beautiful paradise called The Bahamas.

At SMG Millwork, our primary objective is to deliver exceptional service catered to our clients' specific goals and concerns. Our project teams deliver top quality work through a hands-on, collaborative process while keeping our clients' best interests our absolute focus at all times. With specialized training and the support of our company, we foster project teams whose skill and dedication leads to the deliberate, predictable and repeatable millwork experiences that have attracted and retained the top clients in every market in which we focus. The most memorable millwork experiences are based on one principle—it's the people who make the difference. And at SMG, we strive to be the very best.

Responsibilities:

As a SMG Millwork Project Manager you will be responsible for the following:

- Collaborating with clients to develop and deliver exceptional custom millwork services
- Conduct final measures and schedule implementations and closeouts
- Partner with Clients while ensuring the project is delivered on time within the prescribed budget
- Build and maintain a strong relationship with contractors, vendors and internal staff to deliver quality millwork products

Qualifications:

- 2-3 years of Millwork Project Management experience
- Demonstrated success managing complex projects
- Experience in managing projects in a rapidly growing organization is critical
- Proven experience managing others is highly desirable

Preferred:

Degree in a related field
