

Woodworkers wanted

to make very high end custom conference tables. This is a shop-floor position, incorporating the following skills:

- Read plans and cut lists
- Process solid woods
- Veneer layout, pressing, and sanding
- Gluing solid wood pieces to veneered panels, and sanding them flush.
- Assembly of complex CNC milled parts.

You will be working in an extremely well-equipped, air conditioned shop with smart, hard-working people who know what they are doing.

Looking for a person with shop experience or recent graduate from woodworking college program. Training will be provided. Pay commensurate with experience. If hired, the job includes health insurance, pension plan, and vacation pay.

To apply: send resume and photos of recent work to pauldowns@pauldowns.com. You will be judged on the quality of your resume, so don't forget to check for typos. Include 3 references. If you are called for an interview, you will be given a short test that has sections on basic math, identifying shop equipment, wood movement, and plan reading.
