Save on the new HEPA Filter

Our new HEPA filter fits in our CT22 and CT33 Dust Extractors to filter out 99.99% of particles down to 0.3 micron size, or 1/300 the diameter of a human hair. That means your workshop air stays cleaner than ever before – that's healthier for you, and better for your finishes.

Right now through 6/30/05 we're offering these incredibly effective new filters for just \$30. You save \$18 off the regular price.

So clean up the air in your shop, and clean up on HEPA filters.
