Professional Summary

Seeking a position utilizing my extensive knowledge and successful experience in planning, organizing, and following up multi-faced, complex projects, and a position offering opportunities for personal contribution as well.

Work Experience

Plant Engineer “Subcontractor Position”

Premier Design & Media-Covington, GA

January 2023 to Present

- Specialized in traveling to different location around Georgia to evaluate and update all drawings and documentation for particular locations.
- Implemented designs, drawings and documentation for new facilities such as pipeline facilities.
- Responsible for ensuring accuracy, correctness and quality of existing drawings as well as the new documentation.
- Able to work with multiple customers and strict guidelines to ensure project success.

Engineer/Programmer/Drafter

Heft Enterprises Inc.-Covington, GA

January 2020 to December 2023

- To evaluate plans & drawings and discuss them with production staff as how to make a particular job most structural and productive.
- To break down Architectural drawings into pieces for production work using AutoCAD, Cabinet Vision and Router-Cim.
- Used the above named programs to write g-code and m-code to our two Cnc's .Able to write code for Cnc's.
- Took jobs straight from drawings and redesigned and drew shop drawings for shop to build off. Walked Floor employees through fabrication of job.
- When Cnc operators of Vr512 & Innova 408 were out, I ran machines as not to have down time.
- Very accurate in meeting production deadlines as short as 4 – 8 hour turnaround.
- Helped fabricate on floor when extra help was needed.

Cabinetmaker

Worley's Woodworks (Group VI Design)-Lake City, GA

January 2018 to December 2020

- To work various positions with 6 Employee shop with large production scales.
- Designed, built and installed complex custom projects.
- Ensured that jobs were done in a timely, accurate, and productive manner.

Education

Industrial

Locust Grove High School

2019
