

Up-Blast Non-Backdraft Damper

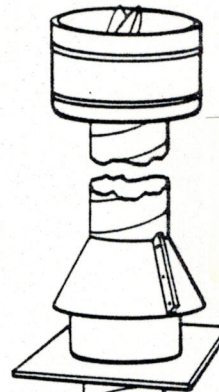

Part #	Dia.	Lbs.
UB12	12"	
UB18	18"	
UB24	24"	
UB34	34"	
UB42	42"	
UB48	48"	

Dampers are pitched when closed, to let rain or snow run off outside of duct.

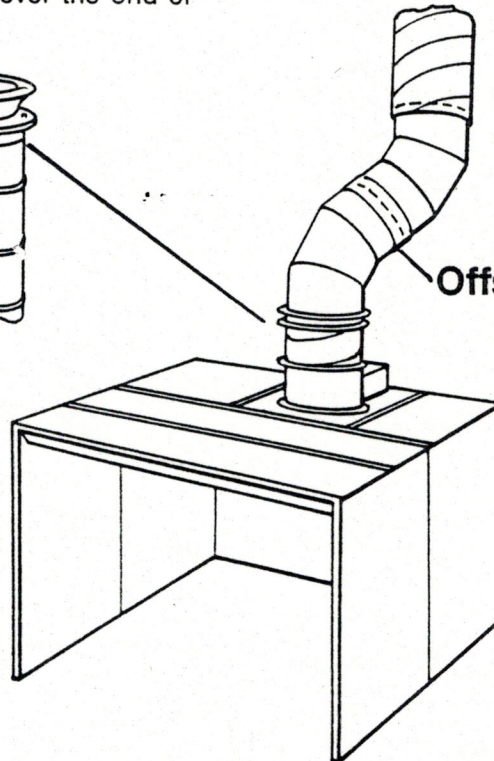

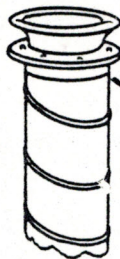

Dampers close automatically when the fan is turned off. This helps to conserve heat.

Minimum discharge
6' above roof
vertically.

Van-Stone Connection

Slip angle ring on the end of pipe, and use a ball peen hammer, peen over the end of pipe about 1/2".

Offset may be req'd

Spray Booth
